EXPERIENCE

QUANT AZIMUTH

2022 - 2026

FRONT-END DEVELOPER

INVESTIGATIVE ANALYTICS FOR TELECOMMUNICATIONS AND NETWORK DATA.

- › Developed Angular interfaces for searching and correlating telecom and network data, including network profiles, domain and social media analysis.
- › Created D3.js graphs and timelines and Leaflet maps for exploring relationships, movement, roaming and location patterns.
- › Implemented real-time monitoring with alert rule builders, geofencing, anomaly review and live notifications.
- › Developed content search interfaces for reviewing messages, documents, audio and video.
- › Developed case workflows with saved views, comments, sharing, permissions, data import, export and archiving.
- › Integrated REST APIs and WebSocket with Java and Node.js services, including asynchronous tasks, progress tracking and pagination.

Angular Material SCSS WebSocket Docker

BACKEND DEVELOPER - NODE.JS / TYPESCRIPT

NETWORK ANALYTICS AND TRAFFIC MANAGEMENT

- › Created Express/NestJS microservices for telecom investigations.
- › Added shared Elasticsearch/ClickHouse/Druid APIs for network monitoring, subscriber dashboards, geo analysis and exports.
- › Implemented traffic policies, app signatures, domain lists and CEL triggers integrated with execution services.
- › Added auth, roles, workspace, Kafka progress and Socket.IO alerts.
- › Created an Ollama AI assistant with a custom agent loop, data tools, UI context, persistent chats and streamed responses.

ONE BAYT SP. Z O.O.

2016 - 2022

FRONT-END / FULL-STACK DEVELOPER

- › CRM web apps for clients: employee management, task system, document generation, dashboards, data import.

Angular ASP.NET Web API Entity Framework SQL Server

PROJECTS

01. DIGITAL DIGGER

- › <http://digitaldigger.app>
- › Cross-platform desktop app for music producers: record or load audio, cut waveform samples and split tracks into stems using a local AI model. Includes a sample library with tempo and key detection.

Electron Angular Node.js SQL
Knex.js TypeScript Python FFmpeg

Digital Digger

02. TBREAD.ART

- › <http://tbread.art>
- › A responsive digital exhibition of my original, non-AI-generated photography.

Next.js Strapi Cloudinary

03. TURN OFF APP

- › <http://turnoff.app>
- › Open-source Windows app that shuts down the PC at a set time.

Electron Angular Node.js
